County Continues Progress Toward Making Mountain Roads Safer

On Tuesday, March 6th, the Board of Supervisors moved one step closer to replacing retaining walls at three locations in mountain communities of Lake Arrowhead, Running Springs and Arrowbear Lake.

The three projects are located at 538 Arrowhead Villa Road in Lake Arrowhead; 2449 Secret Drive in Running Springs; and at Arrowbear Drive at Highway 18 in Arrowbear Lake. Costs for all three projects are estimated to be \$243,000.

“Replacement of retaining walls is unique to our mountainous communities, but they are tremendously important to ensuring the safety of our residents and visitors,” said Third District Supervisor Dennis Hansberger.

The Board’s action authorizes the Public Works Department to advertise for bids, leaving two remaining steps before work begins - completing the bidding process and awarding a contract to the successful bidder.
